

RESEARCH GRANTS AND FELLOWSHIP

The Faculty of Dental Surgery Research Fellowship:

This will be for one year and awarded for a project in any area of oral and dental research.

Joint pump-priming grants available in 2024, all for up to £10,000 each:

Joint FDS-British Society of Paediatric Dentistry

Two pump-priming grants are being offered to support research into the oral health of children in the broadest sense.

Joint FDS-Association of British Academic Oral and Maxillofacial Surgeons

Intended to support research that supports the oral health and dental services for older people in the UK.

Joint FDS-British and Irish Society for Oral Medicine

Intended to support research designed to benefit community or population oral health, and should be related to the field of oral medicine.

Joint FDS-British Society of Periodontology and Implant Dentistry

Intended to support research into periodontal disease in the broadest sense.

Joint FDS-British Orthodontic Society

Intended to support research into the oral health of children in the broadest sense.

Joint FDS-British Society for Oral and Maxillofacial Pathology

Intended to support research that supports oral and maxillofacial pathology.

Joint FDS-Society for the Advancement of Anaesthesia in Dentistry

Intended to support research designed to benefit community or population oral health, and should be related to conscious sedation in dentistry.

Joint FDS-British Association of Oral Surgeons

Intended to support research that improves oral health and patient care related to the specialty of oral surgery.

FDS pump-priming grants:

Up to £10,000 each, designed to meet research consumable costs for research relating to any aspect of oral health and wellbeing.
